PATERSON RACES.

THE DERBY DAY

Immense Turnout of Pleasure Seekers.

MERRILL THE WINNER OF THE DERBY.

OTHER RACES.

SCENES, INCIDENTS.

notw thatanding the lowering state of the atmos

This was for a premium of \$250 for all ages, mile heats, and there came to the post Meeers. Travers & Degood's b h. Arcola, by Lexington, dam Topaz, who was the favorite at two to one against the field; Bowie & Hall's g. c. Richmond, by Two Bitts, dam Faith, the stance of last year's Derby; Dr. Weldon's b. c. Knighthood, by imp. Knight of Bt. George, dam Glycers, a Sine, compact looking race hors; and Mr. Sandford's ch. f. Earring, by Ringgold, dam Emma Wright. The pool sales on the result were very large, Arcola bringing \$.00, Earring \$85, Richmond \$50 and Knighthood \$26. The favorite looked in the finest possible condition, and the only doubt of his winning lay in his being a very long strider, and it was thought that this might possibly be more unfavorable to him than to some of the others, so account of the very heavy state of the track. He was the first heat by a head, and was beaten the shear was ceverly by Richmond, whose style of running a em peculiarly adapted for a race in the mad. After the second heat Richmond solid for \$550, while Arcola bought but \$150 and Knighthood \$35, Earring boung distanced in the first heat. Taken as a whole the was a net-capital race.

First Heat.—Knighthood won the inside, Earring the Second place, Arcola third, and Richmond outside. They had a very good start, Arcola soon rushing to the front cosely followed by Richmond, Knighthood well up, Earring fourth. They went in this way around the turn "tail and head," passing the quarter pole in twenty-legist seconds, and then down the backstrestch without it slightest change of position until near the half-mile pole, when Arcola aboved daylight between him and k amound, and passed that point two lengths in front of Lee gray cit in fifty-five and a half acconda. the other was the state of the track, the having a state of the made of the track, the having a state of the state o cate, and there came to the post Mesers. Travers & egood's b. h. Arcola, by Lexington, dam Topaz, who as the favorite at two to one against the field; Bowie

after his seat upon the Downs, once the aic house. In the following year the race for colts and fillies was instituted, and this was called after the Earl, "The Dorby."

The first Dorby in England was won by Diomed, in 1750, a horse afterwards imported into this country, and from him our best lines of blood, such as that of Boston, through Timoleon and Sir Archy, and Eclipse, through Durse, have come. The first Jency Derby was won by Norfolk, a horse very much inbred to Sir Archy and to Diom. A And this winner of our first Derby and descendant of the winner of the first English Derby is held by many excellent judges to have been, on the whole, the best race horse that ever was bred and trained west of the Atlantic Ocean. The second year of the Jersey Derby did not furnish a great race. As a whole the three year olds of last season were a much inferior lot to those of Norfolk's year, and the year before. In the last named year we had running in this neighborhood such coits and fillies as Captain Moore, Lotd, Lizzie W., Fleetwing, &c. In the year following there were Norfolk, Kentucky, Asterold, Tipperary, &c. Last year the best that ran here was probably Entituore. Manden was the next best, and Julius we hold to have been a better coit than Richmond, who, nevertheless, had the luck to win the Derby. This year it is believed that the three year olds are a very superior lot, and we are inclined to the opinion that the best of them is Lancaster, own brother to Lightning, Thousder and Londstone. It is quite possible that Mr. Aiexander and his trainers deemed ene of the coits asm here his superior, but looking at his priormances in the West, and considering the stoutness as wil is as peed which have distinguished his brothers, chickens of the old blue hen," we are much inclined to the opinion that the may be, if not the best coit of the year, as good as any.

The colis and fallies that came to the post yesterlay were good once, nine-sny of the forty-live entries for the forty having the boldness to contend on such a

that the runners had to pass in front of the grand stand twice during the race. One of the judges went over to get them ex, but a more unequal start was never seen on any course than that gentleman made of it, some of the racers being firty yards about of the others when they were seen away, Enchantress being the first of, Urresseond, Lapwing thard, Satinstone fourth, Ring Lear fith, Merriti sixth, Wation seventh, Remorse eighth, and Hard Tack last, which was enough to throw the change of the held three or four entirely out; but before they got around the lower turn to the three quarter pole Old Abo rushed Merriti to the shird position, while Watson was running fifth. They came up the homestretch and pussed the score at a rapid rate of speed, in two clusters, the first with Enchantress leading, Urrea second, Merriti third, Satinstone fourth; and the second cluster composed of Watson, Hard Tack, Lapwing, Remorse and king Lear, in the order named. Going around the upper turn considerable changing took place, which lasted until they got into straight running on the backgiretch, where Abe took Marriti to the Iront, Enchantress second, Urrea third, Satinstone fourth, Remorse litth, having cut down two or three on the turn, running well in hand; Watson sixth, Hard Tack seventh, Lapwing eighth, and King Lear sinth; all much closer together than they were at the start. There was no change of the position of the three leaders on the lower turn, nor among the others, except that Remorses had passed Satinstone and was working his way up gradually to the front rank; but as soon as they swing into the homestretch the strife commenced in carness. Remorse scon ran past Ulrica, and then challengad Enchantress, went in front of Erc, and can es of fast on Merrill that Abe had to straghten the color to his utmost tension with whip and spur. The game lellow responded, and came noolly up the stretch, and went under the string a winner by a short length, Remorse second, half a length in front of Enchantress; Ulrica a good fourth, Sa

dam Oito, by Oliver. 9

Time—2:55.

The Two Mille Heat Rack.

The Derby settled and the winning colt and the losers being taken off the track by their respective trainers, the bugie sounded for the horses for the closing sevent of the day, which was a two mile race for a premium of \$500, for all ages, to come to the stand. This brought the great champion of the North, Kentucky, and Julius another son of Lexington, Baltimore, the winner of the last St. Leger, and Norwich, a full brother of Norfolk, to the post. Kentucky was the favorite against the field at pretty large odds, notwithstadding a report was current that he was not himself, and that there was a good chance for one of the others to beat him. At the start, however, the odds were one hundred to eighty,on his winning. Baltimore was the second oboice in the pool sales, Norwich next, while Julius did not seem to be thought much of at auction; but his friends were quietly investing on his beating Baltimore in the race, and they picked up a deal of money in that way.

First Head.—Inlush had the language Kentucky next Balti.

THE RACES TO-DAY.

There will be four races to-day, comprising thase, a mile dash, a three mile dash, and a selfor all ages, one mile and a quarter.

Bowen G. Lord, Captain of the Sanitary Company, pre-

and removal of nuisances for the week ending June 5, 1866, as follows:—Complaints of nuisances received, 539; notices served for abatement, 1,301; nuisances shated under service of notice, 729; sinks and water closed; cleaned, 463; loads of night soil removed from city limits, 1,383. Quantities of unsound meat and fish were also seized.

INSPECTORS' REPORT.

Sanitary Superintendent E. B. Dalton submitted a statement of the number of localities visited and reported by the inspector and assistant inspectors during the week ending June 6, 1850, showing totals as follows:—Reports received for New York, 1,249, of which 1,158 were accepted and 91 returned to the inspectors. Total reporter received for Brooklyn, 862; sceepted, 842; returned, 20. COMMUNICATION FROM THE ASSISTANT BANITARY SUPERINTENDENT.

COMMUNICATION FROM THE ASSISTANT SANITANY SUPERINTENDENT.

Mr. J. T. Conking, Assistant Sanitary Superintendent, presented a communication in reference to a resolution referred by the Board to the Common Council of the city on the subject of the removal of garbage and swill. The communication set forth that the resolution had been acted upon by adopting a report from the Committee on Health recommending that all contracts to be made for cleaning streets shall include the removal of garbage and sakes.

MORVALITY REPORT.

The total number of deaths for the week ending June 2, 1886, was 306.

Dr. Harris presented as interesting communication, stating that this number was less by one hundred and six than the total for the first week in April.

Commissioner Borgen presented the report of Superintendent Wm. Fagan, of the Southern District of Gravesend, showing that one hundred and seven carcasses of animals and eixty-three beds had been picked up and buried or burned.

The Board adjourned till two o'clock P. M. Friday next.

Staten Island, has been selected for that purpose, and will be occupied by force if necessary. This is not, however, certain, as the Board has not yet officially announced its decision. If Seguin's Point is taken it is not intended to remove patients suffering fram infectious diseases there, but is designed merely for the purpose of temperantly shelf-ring those who have excaped disease "on board ship" until their clothing and baggage have been disinfected and the time allotted for their detention in quarantine shalf have expired. The inspection of that locality by Mesers Shults, Curtiss, Cummings, &c., on Monday has aiarmed the inhabitants of Staten Island, and the Supervisors of Richmond county have issued a protest, is which they declare "That such action by the Commissioners of Quarantine is lifegal; that the location of choicers hespitals at that point would be equivalent to the attrough the ground of the New Quarantine direct to New York twelve times usily, and that the Staten Islanders would be remise in their duty to their fellow citizens in allowing the hespitals there. They also censure the Commissioners for not crecing suitable buildings on the West Bank; and they express chief determination to organize to rests the contemplated illegal acts of the Commissioners, and for that purpose authorized the clairman to appoint a committee to ciupley counsel, and, in the words of the resolution, 'inke' such cher's action as shall be necessary to secure Staten Island against the calamities stendant on the excellent is had against the calamities stendant on the excellent of heavy counsel, and, in the words of the resolution, 'inke' such
